PELI 1 YEAR LIMITED GUARANTEE

Peli Products, S.L.U. ("Peli") guarantees its Remote Area Lighting Systems (RALS) against defects in materials and workmanship under normal use, service, and maintenance for a period of one year from the date of purchase. This warranty applies only to the original purchaser and is not transferable. All warranty claims of any nature are barred if the case has been altered, damaged or in any way physically changed, or subjected to abuse, misuse, negligence or accident.

For complete warranty details, see www.peli.com/WARRANTY

9455ZØ SAFETY APPROVED RALS 4-5 9600 LED MODULAR LIGHT 6-9 **PELI RALS RANGE** SPECIFICATIONS & ACCESSORIES 10-11

9455ZØ - WORLD'S SAFEST REMOTE AREA LIGHT

+ THE DANGER ZONE NEVER LOOKED SO BRIGHT

Now you can take remote area lighting to hazardous areas around the globe. The Peli™ 9455ZØ RALS is our first area light that's ATEX Zone 0 (Cat. 1) approved allowing you to work where flammable gases, vapors or liquids are present.

+ UNCOMPROMISING OUTPUT

Most safety certified lights use lower lumens to minimise heat generated by the lamp module. The result is a 1600 dimmer light and unsafe work areas. The Peli™ 9455Z0 RALS delivers on all cylinders without compromise. Our engineers developed the Peli™ 9455Z0 RALS to output up to 1600 lumens of clean, bright light that meets hazardous area requirements at the same time.

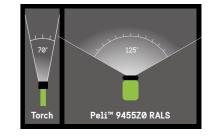

+ CHARGED FOR YOUR ENTIRE **WORK SHIFT**

Powered by a NiMH battery, the Peli™ 9455Z0 RALS extracts 10 hours on a single charge, while also maintaining peak brightness on the job. You'll never be caught in the dark- the flashing low battery warning gives you 30 minutes of reserve light.

+ SEE EVERY NOOK AND CRANNY

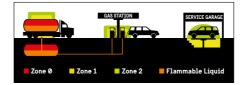

The Peli™ 9455Z0 RALS projects a 125° beam spread that can help prevent workplace injuries. Conventional torches produce a narrow beam lighting up only small concentrated areas. The 125° beam spread from the Peli™ 9455Z0 RALS lights up the entire work area so you see the work at hand and the peripheral hazards around you, leading to better situational awareness.

easy to carry and set up for the next task.

+ HAZARDOUS AREAS: WE TAKE CARE OF YOUR SAFETY

Ignition from lighting products can occur from either the heat of the lamp module or the activation switch, which can emit a spark when activated. The solution is to contain or reduce heat, and also isolate the switch in an airtight enclosure, preventing ingress of gases present in the environment.

	HAZ	'ARDOUS AREA EL	ECTRICAL GU	IDELINES	
	SUBSTANCE	TYPICAL ENVIRONMENTS	US CLASSIFICATIONS	EUROPEAN CLASSIFICATION	VOLATILITY*
CLASS I	Flammable Gasses, Vapors	– Oil Refinery –	Division 1	Category 1 / Zone 0 (Hazard Certain)	MOST
	or Liquids (Acetylene, Hydrogen,	- Paint Warehouse - - Offshore Oil Rig -	(Hazard Likely)	Category 2 / Zone 1 (Hazard Likely)	
	Ethylene, Propane)	– Spray Booth –	Division 2 (Hazard Not Likely)	Category 3 / Zone 2 (Hazard Not Likely)	
	Combustible	- Coal Mine -	Division 1	Category 1 / Zone 20 (Hazard Certain)	
CLASS	Dusts (Metals [Div.1 only], Coal, Grain)	- Grain Silo - - Munitions Factory - - Hay Storage Facility -	(Hazard Likely)	Category 2 / Zone 21 (Hazard Likely)	
			Division 2 (Hazard Not Likely)	Category 3 / Zone 22 (Hazard Not Likely)	
CLASS	Ignitable Fibers & Flyings	– Paper Mill – – Woodworking Facility –	Division 1 (Hazard Likely)	N/A	
III	(Machined Magnesium)	– Textile Mill – – Cotton Gin –	Division 2 (Hazard Not Likely)	N/A	LEAST

^{*} A torch certified to Category 1 (Zone 0) is safe for use in areas rated Category 2 (Zone 1) and Category 3 (Zone 2). Conversely the opposite is not possible. This information should be taken only as a guideline. Contact us for specific

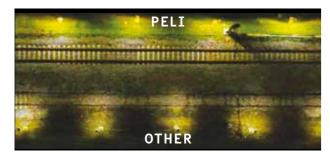

9600 LED MODULAR LIGHT

LINEAR LIGHTING WITHOUT DARK SPOTS

+ HSE COMPLIANT LINEAR LIGHTING

Now it's easy to light up long stretches of rail track, tunnels and even a makeshift runway without the hassles of conventional heavyweight light towers. The Peli™ 9600 LED Modular Light utilises specialist optics to offer continuous lighting in order to fully comply with the HSE (Health, Safety, Environment) requirement for illumination.

Also, with less 9600 lights chained up, you will be able to cover the same work area as other linear lights, having a cost-effective result.

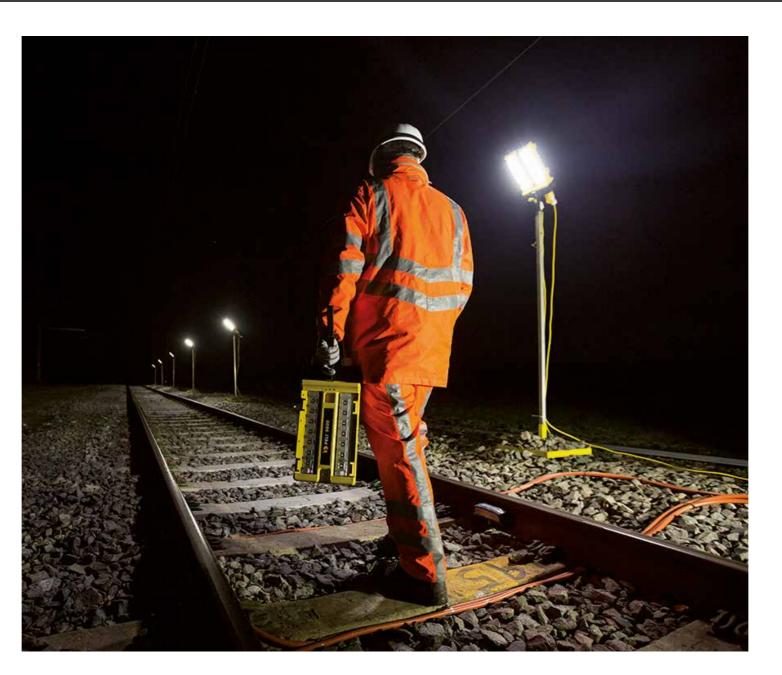

Peli™ 9600 LED Modular Light illuminates a clean, seamless beam spread without dark spots. Competitive lights produce a dull, uneven beam spread.

+ MULTIPLE WAYS TO LIGHT UP A WORK SITE

Engineered with side/end bracket mount receptors and four strap attachment points, plus a stand system that can extend up to 3 m, the Peli 9600 LED Modular Light is ready to mount to fences, hang overhead or stand on

PACK TIGHT AND GAIN EFFICIENCY

The Interlocking Stack Pattern makes transportation and storage simple, resulting in a cost-effective use of space.

LEDs tilt 15° each way to adjust light wherever you need it

EU and UK plug available

+ ROBUST LIGHTING FOR HEAVY **DUTY APPLICATIONS**

The 9600 offers minimal light transmission loss in comparison to similar linear lights; the declared 3000 lumen value per light head is the true verified light output.

The durable design with internal shock supports has been tested onto concrete to withstand drops from 3 m and wind speeds of up to 40 km/h in extended mode (2,85 m mast) and up to 35 km/h when folded (1,85 m). Proof that this light has been designed for use in extreme outdoor conditions.

+ KEY BENEFITS

- HSE Compliant. Wider work area: dark spots elmininated (reduce slips/falls)
- Low power (fewer generators)
- Reduced fuel consumption
- Reduced breakages / longer service / less downtime
- · Compact & easy to transport / deploy
- · No glass breakables
- Maintenance free

* Stated run times based on low power setting and consecutive head activation. High power and simultaneous head use will lower total run time.

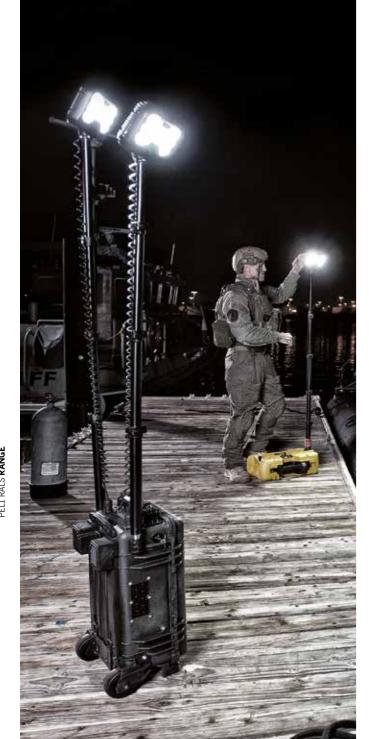

high reliability and low energy consumption

The result is an energy efficient lighting

maintenance costs.

solution with low long-term operating and

FEATURES

12V POWER SUPPLYWITH DUAL USB ADAPTER (ONLY ON 9460/M, 9470/M)

12 volt power supply port can be used to power any electrical product that utilizes a standard 12v vehicle style connector (up to 4 amps) or a variety of USB connections.

Bluetooth app controls multiple units and variable light from 0-100% output. Free App for iOS™ and Android™.

MULTI-TERRAIN TROLLEY (ONLY ON 9460M, 9470M)

Large 1.5 inch polyurethane wheels allow for easier transport across rough surfaces. Molded feet level and stabilize

SWAPPABLE POWER PACK (ONLY ON 9480, 9490)

Swappable power pack w/12v aux. port adapter powers smartphones, laptops, etc.
